

Chapter VII

Exercise 04 : midLS

	Exercise 04
midLS	
Turn-in directory : <i>ex04/</i>	
Files to turn in : midLS	
Allowed functions : None	

- In a **midLS** file, place the command line that will list all files and directories in your current directory (except for hidden files or any file that starts by a dot - yes, that includes double-dots), separated by a comma, by order of creation date. Make sure directories' names are followed by a slash character.

What has not been asked for should not be done!

RTFM!
