

Chapter IX

Exercise 06 : ft_str_is_printable

	Exercise 06
ft_str_is_printable	
Turn-in directory : <i>ex06/</i>	
Files to turn in : ft_str_is_printable.c	
Allowed functions : None	

- Create a function that returns 1 if the string given as a parameter contains only printable characters, and 0 if it contains any other character.
- Here's how it should be prototyped :

```
int ft_str_is_printable(char *str);
```

- It should return 1 if **str** is empty.
