

Chapter IV

Exercise 01 : testShell00

	Exercise 01
What are attributes anyway ?	
Turn-in directory : <i>ex01/</i>	
Files to turn in : testShell00.tar	
Allowed functions : None	

- Create a file called **testShell00** in your submission directory.
- Figure out a way for the output to look like this (except for the “total 1” line):

```
%> ls -l
total 1
-r--r-xr-x 1 XX XX 40 Jun 1 23:42 testShell00
%>
```

- Once you’ve achieved the previous steps, execute the following command to create the file to be submitted: `tar -cf testShell00.tar testShell00`.

Don’t worry about what you’ve got instead of “XX”.

A year will be accepted instead of the time, on the timestamp of the file.
