Chapter IX

Exercise 06 : ft__is__prime

	Exercise 06
	ft_is_prime
Turn-in directory : *ex06/*	
Files to turn in : `ft_is_prime.c`	
Allowed functions : `None`	

- Create a function that returns 1 if the number given as a parameter is a prime number, and 0 if it isn't.

- Here's how it should be prototyped :

```
int ft_is_prime(int nb);
```

> 💡 0 and 1 are not prime numbers.
