Chapter IV

Exercise 01 : print_groups

|	Exercise 01
	print_groups.sh
Turn-in directory : *ex01/*	
Files to turn in : `print_groups.sh`	
Allowed functions : `None`	

- Write a command line that will display the list of groups for which the login, contained in the environment variable FT_USER , is a member. Separated by commas without spaces.

- Examples :

  - for FT_USER=nours, the result is "god,root,admin,master,nours,bocal" (without quotation marks)

    ```
    $>./print_groups.sh
    god,root,admin,master,nours,bocal$>
    ```

  - for FT_USER=daemon, the result is "daemon,bin" (without quotation marks)

    ```
    $>./print_groups.sh
    daemon,bin$>
    ```

```
man id
```
