Chapter VI

Exercise 03 : ft_point.h

	Exercise 03
	ft_point.h

Turn-in directory : *ex03/*
Files to turn in : `ft_point.h`
Allowed functions : `None`

- Create a file `ft_point.h` that'll compile the following main:

```
#include "ft_point.h"

void        set_point(t_point *point)
{
        point->x = 42;
        point->y = 21;
}

int             main(void)
{
        t_point                 point;

        set_point(&point);
        return (0);
}
```
