Chapter V

Exercise 02 : ft_abs.h

	Exercise 02
	ft_abs.h
Turn-in directory : *ex02/*	
Files to turn in : `ft_abs.h`	
Allowed functions : `None`	

- Create a macro `ABS` which replaces its argument by it absolute value:

```
#define ABS(Value)
```

⚠️ Norminette must be launched with the *-R CheckDefine* flag.
Moulinette will use it too.
